

```
1. #include <cs50.h>
2. #include <stdio.h>
3.
4. int main(int argc, string argv[])
5. {
6.     // If the user dont put the name in the terminal, Usage
7.     if (argc != 2)
8.     {
9.         printf("Usage: ./hello <name>\n");
10.        return 1;
11.    }
12.    // Print the name that the user gave in the terminal
13.    printf("hello, %s\n", argv[1]);
14. }
```
